

IDEAL STANDARD and POINTS SCALE for the Fife Fancy Canary. (Australia)

NOTE :

- This bird is the Standard, however it is not square to the perch therefore 60° represents the angle it would be if square.
- The image is not as good as it could be, however this is the official version issued by the Specialist Society

IDEAL STANDARD and POINTS SCALE for the Fife Fancy Canary. (Australia)

		Points
HEAD:	Head: Small, round and neat when viewed from any angle. Eyes near centre, dark and bright. Beak fine.	10
NECK:	Moulded smoothly into body, showing curve at nape.	5
BODY:	Back well filled and nicely rounded but not heavy, the line gradually tapering to the vent.	15
WINGS:	Compact, carried close to the body, meeting at the tips just below the root of the tail.	5
TAIL:	Close packed and narrow, nicely rounded and filled in at the root.	5
LEGS:	Medium length showing a little thigh. Feet proportionate.	5
Colour:	Natural rich soft and pure, as level in tint as possible throughout.	10
PLUMAGE:	Close firm and fine, presenting a smooth glossy silky appearance and free from frills or roughness.	10
POSITION & CARRIAGE:	Semi-erect standing at about 60 degree angle. Alert and jaunty, moving confidently between perches.	10
CONDITION:	Clean and in perfect health.	5
SIZE:	Ideal length, 115mm = [4½"] or less. Tendency to the diminutive.	20
TOTAL		100
Notes: <ol style="list-style-type: none"> 1. The grand essentials of a Fife Fancy Canary are controlled roundness, combined with type, quality and natural colour, (that is, "Non" colour fed yellow, buff and white ground only) in a diminutive form. When all other points are equal, preference to be given to the smallest (shortest) bird. 2. Points are the maximum that can be awarded for a feature but it can be penalised for a serious fault, all features "must" be in balance. 3. Show Cage: Standard Border Fancy show cage with non drinker perch moved in one wire. Drinker hole may be reduced in size for extra small birds. 4. External Border Type drinker
